

## I-4 Economic Corridor Study Business and Government Advisors Meeting - July 16, 2008

### Comment Sheet

Please visit our website at:

[www.hillsboroughcounty.org/pgm/economicstudy](http://www.hillsboroughcounty.org/pgm/economicstudy) or [www.theplanningcommission.org/hillsborough](http://www.theplanningcommission.org/hillsborough)

How do you perceive the future of the I-4 Corridor in the context of your organization's long range plan?

as a mix of mostly nonresidential & future employment  
corridor, transit corridor;

Tell us why you feel that the corridor is well suited or not well suited as an employment or research center.

I think it is well suited for employment & research, residential  
areas further away from transportation Hwy; a need  
for commercial to accommodate industrial & Business Parks  
is needed as well as for residential development;

Is the proposed study area - 1 mile on either side of the interstate - too large or too small? Should there be a different configuration?

Limiting to 1 mile might cut parcels in half, 92 to the South  
is just another 1/2 - 1 mile depending on area, also other  
main Roads to N of I-4

Is there additional data or any other topics that should be examined?

total vacant & versus total developed; land uses can be changed  
several vacant parcel can be developed together if a larger  
parcel is needed;

Please use reverse for any additional comments you may have. Thank you.
